Conference 14–16 November 2018

BeWISE 2018

Women in Science and Engineering

After 2016 the TU Dresden organises again a conference which is addressed to female young scientists and junior research group leaders of selected DFG coordinated programmes at the TU Dresden. Remaining places can be given to other female scientist from the TU Dresden.

The patroness of the event is Dr. Eva-Maria Stange, State Ministry of Science and Arts. Besides the welcome by the Vice-Rector for University Development of TU Dresden, Prof. Dr. Antonio M. Hurtado, a keynote speech by Prof. Dr. Brigitte Voit, Managing Director/Chief Scientific Officer (CSO), Leibniz-Institut für Polymerforschung e. V. Dresden will take place. The three-day conference offers numerous workshops (parallel workshops in English) and coaching opportunities.

During fireplace talks with experienced female professors (role-models), the participants will be able to get into a conversation with them on pathways in research. Moreover, this conference is especially suited to establish networks among researchers.

Venue

INNSIDE Dresden, Salzgasse 4, 01067 Dresden
